## INVOCATION

# DR. JOSHUA BECKLEY

## Senior Pastor Ecclesia Christian Fellowship

Six months after becoming a Christian at the age of 16, Joshua Beckley began preaching. He accepted his call to preach at 18 years of age, he later became licensed in 1976, and began to follow God's will for his life. Leaving home in October 1977 for California, he left by faith, not knowing where he would stay or whom he would meet. He left because God had called him. Pastor Beckley was ordained in 1980. His education extends to a Doctorate in Ministry from The Centre for the Study of Biblical Research, a Masters in Divinity from the International School of Theology and a B.A. in Music Education. Before attending Golden Gate Theological Seminary, Pastor Beckley spent many years and many hours in self-education, learning the Greek and Hebrew languages, the disciplines of Hermeneutics, Homiletics and Exegeses. Through his dedication he has developed an extensive library of Biblical resources.

Pastor Beckley has served in full-time Christian work since 1977. He has worked with Dr. E. V. Hill at the World Christian Training Center as the Assistant Director of Activities in charge of High School Ministries. In less than one year he had Bible studies at eight of the inner city high school campuses which included Dorsey, Locke, Manual Arts, Los Angeles High, Crenshaw and Morningside.

In 1979 he came on staff at then First Baptist Church of Fontana, which is now Loveland Church. He served there for twelve years as Youth Pastor, Elder, National Youth Director for Harambee, Pastor of Visitation, Executive Pastor of Discipleship Ministries, and Executive Pastor of Counseling. Over the years he wrote extensive articles for youth magazines such as "Group." Pastor Beckley also wrote the first step booklet of the Three Steps to Christian Maturity Discipleship program at Loveland, and taught Step One, Wednesday night Bible Study and periodically preached on Sundays 1991, the Lord gave Pastor Beckley a vision of "Picking up the Broken Pieces in the lives of Believers" from which our current ministry was born. Pastor Beckley is presently the senior pastor of Ecclesia Christian Fellowship and has been the pastor since it's beginning. In his current ministry as in past ministries,

SENIOR PASTOR  
DR. JOSHUA  
BECKLEY

**DR. JOSHUA BECKLEY**

Pastor Beckley is concerned about the well being of people from all walks of life. He dedicates his life to spreading the Gospel of Christ to all he encounters; he encourages his membership to live a life which exemplifies Christ and shows forth the love which only comes from Christ..

Pastor Beckley has received numerous awards and recognitions for his service to the Lord Jesus Christ. His present extra-ministry responsibilities are: Co-founder of the Inland Empire Concerned African American Churches (I.E.C.A.A.C.), Member of the Board of Trustees for Christian Community College in Redlands; and Member of the Alliance for Education; Member of the Century Club of San Bernardino City Schools, Board Member of Community Action Partnership; also a Member of several other Ad-hoc Committees that are geared towards changing lives and conditions for our people and our communities.

However, Pastor Beckley says his greatest accomplishment since he met Christ, is his marriage to Lynda Carol and his three wonderful children; Anton, Allea and Anell, and his grandchildren Cameron, Jayden, David, Dominic, Christian, Lailani, Calise, Alayna, Jalen & Eva.

## CONGRADULATORY REMARKS

# ACQUANETTA WARREN

### MAYOR OF FONTANA

Acquanetta Warren was elected as the City of Fontana's first female and African American Mayor in December 2010 and re-elected in 2018. Since taking office, Mayor Warren has and continues to be a strong advocate for economic development, jobs, affordable housing, public safety, a healthier community and fiscal integrity. Under the Mayor's stewardship, the City of Fontana was named the fourth Most Prosperous City in the U.S. (with a population over 100,000), as well as the Most Prosperous City in California from RentCafé. This acknowledgment followed the 2017 Fiscal Times' rating of Fontana as one of the financially strongest cities in the nation. From the day the Mayor was inaugurated, she has emphasized that Fontana is "Open for Business" and works directly with the Fontana Chamber of Commerce to support the needs of the business community.

This effort was rewarded in 2017 with the city being ranked fourth in California in the five-year annual growth of retail sales. During Mayor Warren's time on the City Council, there has been significant economic growth and infrastructure improvements including - four reconstructed freeway interchanges resulting in reduced traffic congestion, safer streets and an ease of facilitating the movement of goods through San Bernardino County's "Inland Empire." In order to continue this economic growth, Mayor Warren began the "Mayor's Manufacturing Council," which saw more than 500 women attend the first annual Inland Empire Women in Manufacturing event. Realizing that a strong economy requires a healthy community, Ms. Warren founded the award-winning program, Healthy Fontana.

MAYOR  
ACQUANETTA  
WARREN

**MAYOR ACQUANETTA WARREN**

The program promotes an active community lifestyle and teaches smart nutrition choices. In 2016, the United States Conference of Mayors (USCM) named the City of Fontana the number one mid-sized city in the nation for eliminating childhood obesity. Ms. Warren has received numerous recognitions and several awards for her efforts throughout the Inland Empire, including 2017's Health Champion Award for Southern California Elected Officials from the California Center for Public Health.

A strong community also needs to feel safe and this is why public safety is among the Mayor's highest priorities. In 2013, Fontana was named one of the top 20 safest communities in the country. Continuing to keep the community safe, the Mayor holds open conversations connecting the community with the police officers that serve to protect them so that the police officers can listen to the needs of the community. This is extremely important and helpful given the circumstances that we currently face.

## About Us

Unique Differences In Development known as U.D.I.D. stems from YOU DID IT. Through the help of our staff, consistency of parents, and most importantly with the will and persistence of our clients they will show a difference in beating the odds. Our clients are doing things doctors said they wouldn't be able to do, by overcoming their diagnosis. They have overcome what family members believed couldn't happen. Any step towards their goal, allows them to say, THEY DID IT. We create an environment that believes in and pushes our clients to be more than their diagnosis. U DID what nobody thought you could do, on your time, and in your own way.

## Who We Serve

We create programs to meet the specific needs of our clients. We implement principles of Applied Behavior Analysis (ABA) into our sports and other services. Every client works toward mastering their individualized goal(s). We teach clients how to play sports and games and the fundamental concepts that can positively impact other areas of their lives significantly. For example, rule-governed behavior, social skills, good sportsmanship, gross motor abilities and confidence to eventually play and participate in their favorite sport!

## Why

Typical developing children have access to many resources available to them everywhere. Clients with different abilities may have limited access or resources available to them. This limited access has resulted in some of my clients to be overlooked. I prefer to love ones needing more love.

## Programs

### Schools

Our program is therapeutic and motivational. It correlates with Positive Behavior Intervention and Support (PBIS). Students with an extracurricular activity at school gives them something to work for. UDID uses positive reinforcement to shape behaviors and decrease challenging behaviors. We use motivating operations to positively reinforce behaviors and give them something to work for. These skills help clients to generalize these behaviors to other environments, such as the classroom. We believe your child's behaviors will show tremendous growth. Social skills are a necessity and we incorporate these programs in the school systems. We give them the tools to help make and keep meaningful friendships. We believe that these programs will decrease: bullying, the amount of disruptive behaviors, and feelings of loneliness and depression. UDID's goal is to help progress your students to shine and learn how to play and work together.

# SUCCESS STORIES

My name is Marcus Williams I am 23 years old and currently employed at Home Depot. I was introduced to Mr. James Randolph at my church, Ecclesia Christian Fellowship. Mr. Randolph would come and talk to the Youth at the church and instruct us on appropriate etiquette for job placement. Through this initial introduction I learned of Mr. Randolph's organization called Pathways Boy's to Men. Through this program I learned how to properly address co-workers as well as management. My interest in the future is learning more about crypto currency, and bitcoin.

## DAQUAN LEWIS

My name is Daquan Lewis. I was born and raised in San Bernardino, and I have attended Ecclesia Christian Fellowship since the age of 12. I am now 20 years old, currently attending my 2nd year of college at Valley Community, majoring in business. Although I am not the first person in my family to attend college, I am the only one to stay in it for more than a year. I played football for four years in high school and received 2 CIF rings and 2 MVP trophies. I ran track for two years and received approximately 15 medals. I also played baseball for a travel ball team named Dynasty and won a ring from them. During my junior year, I tore my ACL and LCL, and because of it, I missed out on an opportunity to play football at Arizona Christian. But my injury is one of the best things that ever happened to me. It made me a business major.

Before my injury, I wasn't interested in school. I was a stereotypical athlete, just passing school to try and get an offer. Senior year I tried my hardest to get a job, and I got nowhere. I realized how hard and competitive getting a job can be. So, I started customizing shoes as a side hustle to have money, and I realized that I could go far with this as I got better. I also realized that I could lose a scholarship, but the knowledge you get is yours forever. So, I started customizing shoes and made a five-year plan where my end goal is to own a shoe store, a barbershop, and a restaurant.

I want to inspire my fellow African Americans to build their private businesses and don't have to report to anyone. Make more opportunities for the next generation of African Americans. My favorite quote is by Dr. Martin Luther King Jr "Intelligence plus character that is the goal of true education. "I feel when really you want to do something, and your intentions are pure, you can do amazing things. Another inspiring person is Ray Lewis. He is a retired Linebacker for the Ravens. My favorite quote from him is "suffer hard today to live the rest of your life as a king" this quote reminds me that despite the setbacks I may encounter, it's all a part of God's plans. I need to keep a level head and learn something from the situation, and it can turn out great.
